OOPL SKILLS COMPETITION

Business Overview:

Brew haven coffee is a newly opened coffee shop located in 10th avenue Caloocan City. The business focuses on providing high-quality coffee, specialty drinks, and dessert to customers. The shop aims to offer an efficient and seamless customer experience with a modern payment system.

Project Requirement:

The client is in search of an effective and dependable Point of Sale (POS) system to facilitate sales and customer interaction. The system should make operations efficient, enhance order processing, and produce sales reports.

Key Features Requested:

1. **Payment Processing:** Processes transactions when a customer pays for their purchase
2. **Receipts & Invoicing:** Generate printed or digital receipts for customers.
3. **Basic Reporting:** Provide simple daily sales summaries and transaction history.
4. **Offline Mode:** Allow transactions even when the internet is temporarily unavailable.
5. **VAT Calculation:** Automatically apply and calculate applicable taxes.
6. **User-Friendly Interface:** Simple and intuitive design for easy staff training.

Instruction:

1.Create a New Project:

- Open Visual Studio 2010
- Select "File" -> "New" -> "Project".
- Choose "Windows Forms Application" under "Visual Basic".
- Name your project (e.g., "Point-Of-Sale") and select a location.
- Click "OK".

2. Add Splash Screen:

- In the Solution Explorer, right-click on your project.
- Select "Add" -> "New Item...".
- Choose "Splash Screen" and name it (e.g., "SplashScreenForm.vb").

- **Design your splash screen:**
  - Add a `PictureBox` for your logo or image.
  - Add `Label` controls for your Client name ("BREW HAVEN COFFEE"), application name ("Point of Sale Management) and any other relevant information.
  - Add a `ProgressBar` to simulate loading progress (optional).
  - Add button and named it "btnStart"
  - Customize the appearance (colors, fonts) as desired.
  - Configure the Splash Screen:**
  - In the Solution Explorer, double-click "My Project" (or right-click the project and select "Properties").
  - Go to the "Application" tab.
  - In the "Splash screen" dropdown, select "SplashScreenForm" (or the name you gave it).
- ****Set the Minimum Display Time****
  - In the `SplashScreen.vb` code, add a `Timer` control to the form.
  - Set the `Interval` property of the `Timer` to the desired display time in milliseconds (ex., Interval: 3000 for 3 seconds).
  - In the `Timer_Tick` event handler, add code to close the splash screen and open the main login form:

****ADDITIONAL****

** Add Mouse Hover of Each Button using MouseMove in Events.**

Example:

Private Sub Button1_MouseMove(ByVal sender As Object, ByVal e As System.Windows.Forms.MouseEventArgs) Handles Button1.MouseMove

- button1.backColor = color.white
- button1.foreColor = color.black

*Color Palette:

-BackGroundColor = 255, 192, 173

-FontColor = 85, 66, 61

3. LoginForm Design:

- **Create another Form and named it LoginForm**
  - Add a `PictureBox` for the POS icon/logo.
  - Add a `Label` for "POINT OF SALES MANAGEMENT".
  - Add a `Label` for "Nexus Triad" (or your company name).
  - Add a `Label` for "Password:".
  - Add a `TextBox` for password input (set `PasswordChar` property to `*`).
  - Add a `Button` for "SHOW" (to toggle password visibility).
  - Add a `Button` and named it "BtnLogin"
  - Add a `Button` and named it "BtnExit"
  - Add a `Label` for the "Interesting" message (as shown in the screenshot).
  - Add a `Label` for the copyright notice.
  - Design the layout to match the provided screenshot, including colors and fonts.

4. Create another Form and named it DashboardForm

****Main POS Form**:**

- Add 4 `GroupBox` in Dashboard. For Main Menu, named it "MainMenuGroupBox", For POS, named it "PosControlGroupBox", For SALES, named it “SalesGroupBox”, SETTINGS and named it “SettingsGroupBox”.

“MainMenuGroupBox”

-Add a Button with “POS”, SALES”, and “SETTINGS options, for POS named it “POSButton”, For SALES, named it “SALESbutton” and for SETTINGS named it SettingsButton.
